

DREAMER HOUSE

Mission 6 of 7

A PARK

We want you to draw a park for us...
...but this park is no ordinary park.

This park is special because the kids who go to it are blind. They cannot see anything. Because of that, this park cannot look like the ones you normally go to. For example, rides that are super-high might be too dangerous for kids who can't see.

So how can you make a park that is fun for kids like them?

Even though they cannot see,
what what can they touch, smell, hear, or even taste in this park!?

This park must have at least **four rides**. Each of them has to be fun for the kids who will come to the park.

When you're done, film yourself as you present your drawings. To the camera, explain why you've made your park the way you did!

We can't wait to see your drawings!

Lots of love,
Dreamer House
