

**FREEDOM  
& BALANCE**

**"IF YOU  
REDESIGNED  
YOUR LOCAL  
AREA WHAT  
WOULD IT  
LOOK LIKE?"**

## **WELCOME TO DREAMER HOUSE!**

We're an architecture company that hires the world's most imaginative humans to redesign cities.

**You have seven missions to complete.**

With each mission, you have to make two items:

1. A drawing (to hang up on your walls)
2. A video presentation (to share with your family)

In this curriculum you will make:

- A restaurant
- A school
- A bungalow
- A library
- A hotel
- A park
- A farm

These missions will help you develop your creative literacy, emotional intelligence and presentation skills. By the end of the curriculum, you will have a collection of architectural drawings that is imaginative, fun, and ready to share with the whole family.

# HOUSE RULES

**1.** There is no 'right' way to complete each mission. Just have fun!

**2.** The missions can be completed in as little or as much time as you wish. You can complete a mission in ten minutes or in a few days.

**3.** Feel free to complete a mission more than once.

Secret tip: If you change the target audience of the building you design, you may get different results. Experiment!

**4.** Invite the family to join you as you do these missions. Every family member has a unique way of seeing the world. Use their eyes to help you make the best buildings ever, together!

**5.** When you have completed a mission, save the pictures / videos of your work in the 'My Dreamer House Drawings' folder. That way you can keep your work safe. You never know, it might be worth something one day!

**6.** Hang up your work on your bedroom walls because... every artist should to have their work on walls!

**7.** Share pictures / videos of your work with friends and family. Ask them what they like about your, and what you can do better next time. Asking for feedback helps you get better as an artist.

**8.** Speaking of feedback, we would love feedback from you (or your guardian) about these missions. What do you think of them? What would you change if we were to make more missions? Let us know: [hello@freedomandbalance.com](mailto:hello@freedomandbalance.com)
