

# DREAMER HOUSE

**Mission 3 of 7**

## **A BUNGALOW**

We want you to draw us the inside of a bungalow...  
...but this bungalow is no ordinary bungalow.

This bungalow is for a family that loves to argue. The family has a mum, a dad, a 4-year-old brother, and a 6-year-old sister. They argue... all the time! The worse part is that this bungalow has only one room for the whole family to sleep in! One room! So when they argue, there is nowhere to hide! If they don't figure out how to love each other, the family will go crazy!

You have to make a room in this bungalow that will help the family love each other better.

How can you help this family get along more? What would be in the room? What would be on the walls? What can the family see, hear, taste, touch and smell?

When you're done, film yourself as you present your drawings. To the camera, explain why each part of the room will help the family love each other better.

We can't wait to see your drawings.

Lots of love,  
Dreamer House
